

AUGENTIC - Driven by Technology

AUGENTIC GmbH having its headquarters in Munich, Germany is a globally operating company in the business of digital identities, the related identity management and digital payment solutions.

Our projects range from the supply of components all the way through to turnkey solution projects. Using AUGENTIC's competencies and talents our customers - governments and central banks worldwide - have a responsible, trustworthy and competent partner for the secure handling of the identity of their citizens and the development of digital payment systems.

Founded by a team of well-known industry experts, AUGENTIC GmbH combines innovative power with many years of expertise enabling customers to benefit from tailor made solutions of exceptional and lasting quality.

Our talents are a key asset to the company. Therefore, we put great efforts in individual development plans. So, are you interested in shaping the future and make this world a safer place together with us? You can expect exciting, varied tasks with the opportunity to actively shape the further development of the company.

BE AUGENTIC!

We are currently looking for a

Technical Manager (m/f/d)

for our headquarters in Munich:

Task description:

- You manage the technical planning, design and development of projects.
- You define required technical resources and work packages to ensure project completion.
- You gather requirements using various methods such as interviews, document analysis, requirements workshops, business process descriptions, and use cases & scenarios.
- You manage testing, documentation, training, or any technical requirements identified for the project.
- You ensure that projects are deployed as defined in particular regarding time and quality.
- You provide regular and timely project status updates to Project Management as needed to ensure the projects are progressing according to plan.

Requirements:

- You have a university degree in IT engineering or similar field
- You have at least 5 years of experience in international IT related projects preferably in the field of Identity and Access Management, Smart Cards, Public Key Infrastructure, Business Process Modeling, Business Analysis and/or Database Management Systems.
- You are customer driven and a team player, with strong interpersonal and intercultural skills.

- You have excellent communication and presentation skills, both orally and in writing.
- You have excellent organizational and analytical skills.
- You can manage expectations and escalations effectively.
- You are prepared to travel.
- Language skills: Fluent in English. Other languages are an advantage.

Our offer:

- A working environment characterized by team spirit and mutual appreciation
- An extraordinary and exciting product portfolio
- Flat hierarchies
- Direct reporting line to experienced senior management
- Flexible working hours
- Modern office environment
